- Modem based postage resetting
- 9 Departmental accounts
- Memory for 6 custom messages

T-1000

DIGITAL POSTAGE SYSTEM

THE T-1000 SEMI-AUTOMATIC POSTAGE METER

The **T-1000** mailing system shown with optional 5lb interfaced scale, space saving scale stand, and envelope sealer.

With optional scales up to 150 lb., the **T-1000** can provide U.S. postal rates for packages and provide the option of international rates.

KEY ADVANTAGES

AUTOMATIC DATE SETTING

Eliminates the daily chore of updating the meter date. The **T-1000** automatically does it for you.

SEMI-AUTOMATIC FEEDING

This convenient feature allows you to maximize your time and increase your productivity.

THERMAL TRANSFER PRINTING

No More Smearing or Messy ink Rub-Off using the **T-1000**. Thermal transfer printing ensures that last image will be as crisp and clear as the first. Get up to 1,600 consistent images per cassette on any type of media.

CUSTOM MESSAGES

With the push of just one button, every letter you send can have your company name, product name, or promotional message using the advanced digital memory feature. Store up to six advertisements.

DEPARTMENTAL ACCOUNTING

Monitor your postage expenses in nine areas of your business with this function.

QUICK AND EASY POSTAGE RELOAD

Reload Postage with TELESET* on the **T-1000**. The entire process runs automatically.

OPTIONAL INTERFACED SCALES

With optional interfaced scales up to 150lb., the **T-1000** can provide U.S. Postal Service rates for packages of all sizes. Certain optional scales also allow you to compare USPS rates with UPS and FedEx to ensure the best possible rate. Other optional scale features include international postage rates and differential weighing.

*Teleset is the postage resetting system developed by FP that utilizes direct modem communication from the meter to our secure processing center.
