

ultimail™ 95

DIGITAL MAILING SYSTEM

THE FP ultimail™ 95, BUILT WITH GERMAN ENGINEERING, FEATURES UNMATCHED QUALITY, PERFORMANCE, AND VERSATILITY

THE ultimail™ 95 MEETS ALL THE ENHANCED REQUIREMENTS FOR A COMPANY THAT NEEDS ADVANCED CONTROL OVER ITS MAIL PROCESSING

The ultimail™ 95 is easy to use with a speed of up to 120 pieces per minute and crisp print quality. Experience bottom-line benefits immediately with its ability to track up to 150 departmental accounts, giving you instant access to how postage dollars are being spent. The ultimail™ 95 offers a myriad of world-class enhancements and features that not only make it easy to keep track of postage costs, but provide further cost savings by making it possible to add custom advertisements or logos as a part of the postage impression on the envelope. With the addition of optional scales, and specialized accounting and shipping software, the versatile ultimail™ 95 becomes an independent shipping station, saving your company additional time and money.

ultimail™ 95 Features

- Up to 150 Departmental Accounts
- Interfaces with Shipping Software
- Clean, Quiet Digital Operation
- Automatically Prints up to 120 Pieces per Minute
- Backlit LCD Display
- Automatic Date and Postage Correction Capabilities
- Program up to 9 Custom Messages
- 100% USPS IBIP Compliance
- Integrated 10-lb. Scale
- Optional Interfaced Scale of up to 150 lbs.
- Postage Resetting via FP teleaset™
- Incoming Mail Stamp

ultimail™ 95

DIGITAL MAILING SYSTEM

KEY ADVANTAGES

HIGH-TECH PRODUCTIVITY

Designed for image, efficiency, and maximum utilization, ultimail™ 95 processes up to 120 pieces per minute. The 300 dpi print quality ensures a clarity of output that enhances the image of your business.

CUSTOMER-FRIENDLY

The ultimail™ 95 is intelligently designed to fit into any office environment. A combination of a soft-touch panel with an easy-to-understand LCD display virtually eliminates any learning curve for operators.

WORLD-CLASS ENHANCEMENTS

Leveraging a state-of-the-art design, ultimail™ 95 provides an information-based indicia (IBIP) that delivers the highest level of security proposed by the USPS. Up to nine custom advertisements can be programmed to strengthen your company's brand awareness.

OPTIMAL EFFICIENCY

The quiet design allows you to use the unit anywhere in your office without disturbing co-workers. Trend-setting features like automatic dating, re-dating, postage correction, automatic label dispenser, and more set the ultimail™ 95 apart from the competition.

QUICK AND EASY POSTAGE RELOAD WITH teleaset™

teleaset™, the postage resetting system developed by FP, utilizes direct communication from the meter to our secure processing center. The entire postage reloading process runs automatically.

CUSTOM MESSAGES AND GRAPHICS

Add greater personalization with up to nine custom advertisements and up to six user programmable SMS text-based messages.

DIFFERENTIAL WEIGHING

Increase productivity when processing your mixed mail with the time-saving reverse weighing option. If you place several pieces of mail on the scale at once and remove one from the integrated scale, the ultimail™ 95 will automatically calculate the weight of the last piece removed.

THE ultimail™ 95 CONVEYOR-STACKER SYSTEM

Just stack your mail in the Automatic Feeder-Sealer and the ultimail™ 95 will take care of the rest. For added convenience, the optional CONVEYOR-STACKER handles up to 300 (single-insert) envelopes at one time, eliminating the need to continually empty small exit trays during high-volume runs. The ultimail™ system shown here allows you to seal, post, and stack mail in one continuous flow for efficient processing.

Call your FP representative today to order your ultimail™ 95 Digital Postage System and ask about our family of mailing systems and solutions.

When you have questions, we have solutions.

Our commitment to fast, attentive customer service is just one of the reasons why we're the fastest-growing USPS-approved mailing systems vendor in the US.
